 ଏବଂ ଏବଂ ଏବଂ ।

The poet was wandering alone like the floating cloud over the valleys and hills. Suddenly he noticed some bunches of daffodils beside the lake. The flowers were dancing in the gentle breeze beneath the trees, beside the lake. The flowers were seemed like the twinkling stars of the milky way. And they stretched endlessly in an endless series across the bank of the lake. They were swinging their heads to the tune of the breeze. The waves of the lake were dancing. But they were in joy. But they overreached all those pleasant phenomenon of leading their own delight. But the dancing daffodils transcended the joyful ambience created by them. written

Sub: Issue of waterlogging in our area.

Respected Sir,

I, ABC, resident of X area, Y district, would like to place my humble discretion before you ~~about~~ regarding the issue of waterlogging in our area.

(Waterlogging is a problem of the entire country. At present the whole India is suffering from the waterlogging problem) and our locality is also no different. excluded from it. The prime reasons of waterlogging are blockage of drains, pits holes etc. by carelessly dumping of plastic bags, household garbages etc. Besides, the carelessness of our municipality and the irresponsible attitude of our community people generates waterlogging. It gives birth to several types of vicious bacteria and vectors of different types fatal

our ground for the community people generates waterlogging. It creates serious health and hygiene hazards for the entire community. This creates serious health and hygiene hazards for the entire community. inundates

Thanking You  
Yours sincerely  
ABC.

Opprise. (SIR/MR/M)

water logging is a problem faced by the entire country.

accentuates the problem

This creates serious health and hygiene hazards for the entire community.

We, as a community, have lodged several complaints in this regard to the local authorities which have fallen into deaf ear!

Kolkata, 19th August 2020. Corona Virus is a sudden ~~epidemic~~<sup>outbreak</sup> of ~~that has affected the~~ nation ~~after whole world.~~ It brings a fatal condition for the people but also breaks the rhythm of the day to day life of people. So it makes a drastic change in our daily life. The first case was detected in China Wuhan City of China in November, 2019. The first case was reported in India in Kerala in March 2020. The only way of being safe from the rage of Coronavirus is social distancing. It is a communicable disease, so the social isolation is the only means of getting safe from it. To maintain this social isolation the Indian Govt. has stopped all types of international communication with the abroad. It has not only limited the international level but also it reaches in our daily life. The place where is the high chance of spreading out of this virus is market. Previously the stops and markets were totally closed for some time being. But after realising that it cannot be the these types of norm generates a heavy problem in peoples daily life, Government tried to handle it in an organised way. The home delivery system has been brought in our day to day life. The shops were opened for in morning from 7am and evening from 5pm to 8pm. In front of the shop a barricade made by bamboo is placed to maintain the social gap. Using of mask becomes mandatory provision in the rule made by the Government even out from home without mask is a penalise offence. All this though all these rules and norms become a hindrance for the general flow of our daily life, it makes us more disciplined and hygienic. It ~~us~~ <sup>unconsciously</sup> makes us able to understand that we are social animal, the social unification is very much needed for our social and mental health also.

It has wreaked havoc in the lives of billions of people which has resulted in mass scale destruction. Since Corona Virus spread due to physical contact, Social distancing is the safest means of protection against it. ~~measures of Corona Virus~~

### Cancellation

Cancelling all inter. flights, strict lockdown procedures imposed throughout the country, adherence to protocols like compulsory masks in public places etc. In order to enable support the essential needs of people

Compulsory masking, enforcement of social distancing, temperature checks at the entry points and routine sanitization programmes were conducted every day. The police and the administration were given strict instructions by the respective governments to take necessary actions against any defaulters flouting any of the above rules.

Flouting  $\rightarrow$  disobey with contempt.

Write a letter (Within 200 words) to the editor of a newspaper on the ways and means of preventing the molestation of women and children in India. (WBCS-2015)

Sub: ways and means of preventing the molestation of women and children in India.

Sir,

(With due prominence, I, ABC could like to place my humble discretion before you regarding the ways and means of preventing the molestation of women and children in India.)  
In the whole world women are minority in number and children are minor by their brain rather we can say they are innocent. At present in India molestation of women and children is a very frequent incident or else we can say it was previously also there but absence of the social communication gap became the hindrance to open up it before public. These type incidents are the sign of barbarism which makes the whole country shameful. The most unfortunate thing is that, the involving the uneducated classes the educated elite classes also associated with that. To prevent children and women from this type occurrence, Government of India passed Protection of children from sexual offences Act (POCSO), 2011 and Domestic Violence Act, 2005 simultaneously. Basically in these type incidents a group of people are victims and another group of people are offenders. So the prevention of these type barbarism is only can possible by the total aware civilised participation of people in the society.

Thanking You,  
Yours sincerely  
ABC

We to apprise you. regarding the burning issue of child and women molestation in India our country.

Since women and children are naturally vulnerable in a male dominated society like India they are subjected to many forms of physical and mental abuses. Historically women have been victims to many social offences evils like dowry, Sati system, dardai culture etc. Even today oppression of the weaker sections of the society (which includes women and children) is rampant across the rank and file of our country.

This social evil has penetrated every corner of our society be it our homes, educational institutes, workplaces, public transports or even hospitals/jails.

Unfortunately statistics don't the reveal the truth about the seriousness of this menace because majority of the cases go unreported. Even if the victims try to raise their voices, they are subjected to even more trauma in various ways. In most cases consumers don't extend their helping hands due to fear of retributions -

Though there are very strict laws against these heinous crimes (including the POCSO act) they are found to be ineffective due to several reasons.

In order to usher in a social change the first step is to sensitize people through mass sensitizing programs at various levels. We, in our locality have decided to take a small step in this regard by forming a Self help group for women in our locality. We could like to spread our message by extending our programme to other areas as well. ~~Please~~ not how to help us in this endeavour by

Self help group for ----- message ~~the~~ by extending our programme to other areas as well - ~~the~~  
~~regards~~ I would like to request you to help us in this endeavour by  
spreading our message through your esteemed daily.
