Sub: Issue of waterlogging in our area.

Respected Sir,

I, ABC, resident of X area, Y district, would like to place my humble dissection before you regarding the issue of waterlogging in our area.

(At present the whole India is suffering from the water logging problem) and our locality is also not excluded from it. The prime reasons of waterlogging are

blockage of drains, pit holes etc. by careless dumping of plastic bags, household garbages etc. Besides the carelessness of our municipality the irresponsible activities of

people generates waterlogging. It gives birth of the several types of viruses, bacteria and vectors of different types of fatal

diseases like dengue, malaria etc. It makes the whole locality unhygienic also. Through the problem persists throughout the year, it becomes unbearable during monsoon.

In monsoon season it becomes quite unbearable. Sometimes the outdoor water reaches inside our house. I with the residents of our locality has complained so many times in writing but every time they have fallen into deaf ear. I hope

that I have been clearly able to point out the problems we are facing. Again I hope it will reach out to the concerned authorities through your kindness of your esteemed daily.

Thanking You  
Yours sincerely  
ABC.

apprise. (SIR) (M)

Water logging is a problem faced by the entire country.

behaviour. accentuates the problem

This creates serious health and hygiene hazards for the entire community.

We, as a community, have lodged several complaints in this regard to the local authorities which have fallen into deaf ears.

Kolkata, 19<sup>th</sup> August <sup>2020</sup>: Corona virus is a sudden <sup>epidemic</sup> jeopardy of ~~that~~ <sup>which</sup> has affected the nation ~~rather~~ <sup>not only</sup> whole world. ~~It brings a fatal condition for the people but also breaks the system of the day to day life of people. So it makes a drastic change in our daily life.~~ The first case <sup>of Corona virus</sup> detected in Wuhan city of China <sup>in</sup> November, 2019. ~~The first~~ <sup>The first</sup> in India <sup>Case was reported</sup> in Kerala <sup>in</sup> March 2020. The only way <sup>of</sup> being safe from this rage of Coronavirus is social <sup>distancing</sup> ~~isolation~~. It is a communicable disease, so the ~~the~~ social isolation is the only means of getting safe from it. ~~To maintain this social isolation the Indian Govt. has stopped all types of international communication with the world. It does not only limited within the international level but also it reaches in our daily life.~~ The place where is the high chance of spreading out of this virus is market. Previously the shops and markets were totally closed for some time being. But after realising that ~~it cannot be~~ these types of norms generates a heavy problem ~~in~~ peoples daily life, Government tried to handle it in an organised way. The home delivery system has been brought in our day to day life. The shops were opened ~~for~~ in morning from 7 to 9 am and evening from 5 pm to 8 pm. In front of the shops a barricade made of bamboo is placed to maintain the social gap. Using of mask <sup>becomes</sup> ~~is~~ mandatory provision in the rule made by the Government even out from home without mask is a penalise offence. ~~At this~~ Though all these rules and norms become a hinderance ~~of~~ the general flow of our daily life, it makes us more disciplined and hygienic. It ~~making~~ <sup>understanding</sup> makes us able to understand that we are social animal, the social unification is very much needed for our social and mental health also.

It has wrecked havoc in the lives of billions of people which has resulted in mass scale destructions. Since Corona Virus spread due to physical contact, Social distancing is the safest means of protection against ~~it~~ <sup>it</sup>. ~~It.~~

Write a letter (within 200 words) to the editor of a newspaper on the ways and means of preventing the molestation of women and children in India. (WBCS-2015)

Sub: ways and means of preventing the molestation of women and children in India.

Sir,

With due prominence, I, ABC, would like to place my humble discretion before you regarding the ways and means of preventing the molestation of women and children in India.

In the whole world women are minority in number and children are minor by their brain rather we can say they are innocent. At present in India molestation of women and children is a very frequent incident or else we can say it was previously also there but absence of the social communication gap became the hinderance to open up it before public. These type incidents are the sign of barbarism which makes the whole country shameful.

The most unfortunate thing is that, besides the uneducated classes the educated elite classes also associated with that.

To prevent children and women from this type occurrence, Government of India passed Protection of children from Sexual offences Act (POCSO), 2011 and Domestic Violence Act, 2005 simultaneously.

Basically in these type incidents a group of people are victims and another group of people are offender. So the prevention of these type barbarism is only possible by the total active civilised participation of people in the society.

Thanking You,  
Yours Sincerely  
ABC
