

Artificial Intelligence

Artificial Intelligence is the combination of two words, ~~the~~ Artificial and Intelligence, which means man-made intelligence. When machines perform intelligence tasks similar to humans, it is known as the Intelligence Artificial intelligence. Basically Artificial Intelligence is ~~the~~ branch of Computer science. Father of the artificial intelligence is John McCarthy. It is a very advanced technology. There are so many applications of artificial intelligence, like ~~Game playing~~ ^{Game playing}, Robotics, Health care, Computer vision, Agriculture, E-commerce, Social media etc.

On the basis of capability Artificial Intelligence can be divided into ~~mainly~~ ^{main} three types :-
 1) ~~Narrow~~ ^{Narrow} AI or weak AI which is capable of completing dedicated tasks with intelligence. The current version of AI is narrow AI.

2) ~~General~~ ^{General} AI which is a strong version and can ~~do~~ ^{demonstrate} the human ~~intelligence~~ ^{capabilities}. Currently this type of intelligence does not exist in the world.

3) And lastly Super AI that is ~~self aware~~ ^{self awareness} and abilities that to ~~surpass~~ ^{transcend} the humans. It is also a hypothetical concept and a challenging task to develop ~~this type of~~ ^{technology for humans}.

These are several advantages of artificial intelligence -

① It can reduce human error.

② It can be very helpful for risky situations where humans can't reach or find it difficult ~~to survive~~ ^{to survive}. For example ~~currently~~ ^{currently} India applied Artificial Intelligence in Chandrayaan-3 mission. where the rover 'Vikram' and 'Pragyan' were made totally based on Artificial Intelligence.

(ii) It can provide support or service in any sector.

(iii) Currently the Google ^{and many} other platforms ^{are} also adapting the assistance of Artificial Intelligence in ~~our~~ ^{their} daily use. ^{software.}

(iv) It is very much helpful for those countries where the number of population is very less. AI is multi-tasker and master of repetitive actions. So a huge number of people can be replaced by the AI.

There are so many disadvantages also -
(i) The development of AI and maintenance of AI ^{is} very expensive. ^{dependence.}

(ii) The ~~dependence~~ ^{that} of human beings on such technology make people lazy.

(iii) There is a fear of ~~what more advanced artificial intelligence~~ ^{that} ~~the chess grand master~~ ^{might overpower} ~~the chess grand master~~ ^{human intelligence.} ~~the chess grand master~~ ^{was} ~~beaten~~ ^{by} ~~the Deep Blue~~ ^{which was AI} ~~from~~ ^{man.} ~~human chess~~ ^{Grandmaster} has been able to beat AI since 2005. So there is a fear that it ~~can~~ ^{may} surpass the human brain and become master of the world.

(iv) In overpopulated countries like India there is a fear of ~~jobless~~ ^{losing} jobs.

Every thing has its good and ill-effects. ^{and AI is no exception.} ~~It is~~ ^{also not excluding of that.} Its effects depend on its usage. ^{It is} upon the procedure ~~how to use it.~~ ^{we have to} ~~keep~~ ^{always} ~~mind~~ ^{that} ~~we~~ ^{we} use it for ~~our~~ ^{service} ~~which~~ ^{will} ~~benefit~~ ^{the} ~~whole~~ ^{whole} ~~humanity.~~ ^{at large.}

Social media - a Boon or Bane

Social media is a digital platform where people can interact each other virtually. It is a medium where people connect ~~with each other across the world~~ ^{with anyone from any corner of the world}. This platform has a multi ~~aspects~~ ^{purpose}. It can be used for several ~~purpose~~ like, learning, blogging, podcasting, marketing, chatting etc. ~~Social media is making the world a smaller place.~~ ^{It is technologically advanced and people are using it more and more.}

There are so many examples of social media, like Facebook, WhatsApp, Instagram, Twitter, YouTube etc.

~~During the time of Covid-19 pandemic, social media was the only way-out. At that time the physical contact was totally banned. People got connected through social media only.~~ ^{During the period of pandemic, social media was the only way-out. At that time the physical contact was totally banned. People got connected through social media only.}

The total education system and the business of IT sector were ~~to~~ ^{now} based on it only. ~~Social media.~~ ^{Social media.}

There are so many good effects of social media - In education, it can ~~exceed~~ ^{transcend} geographical barriers and ~~distance~~ ^{it} can be time ~~saving~~ ^{saving} and economical ~~saves~~.

In business it can be a great platform of marketing. It can ~~connect~~ ^{connect} the people globally. ~~For example the business of IT sector.~~ ^{For example the business of IT sector.}

~~Social media was applied here widely.~~ ^{Social media was applied here extensively/widely.}

So many global ~~events~~ ^{events} which is ~~continually~~ ^{continually} ~~practising~~ ^{practising} ~~onwards~~ ^{onwards} through ~~the~~ ^{the} social media ~~only~~ ^{only} ~~through~~ ^{through} ~~the~~ ^{the} ~~medium~~ ^{medium}. A socially lonely person can make friends ~~by~~ ^{by} this media. One can improve and enhance his knowledge. ~~Entrepreneurs~~ ^{Entrepreneurs} can showcase their ~~brands~~ ^{brands} products through this medium.

There are so many ill effects also - ~~from~~ ^{the} ~~peo~~ ^{peo} ~~ple~~ ^{ple} ~~advised~~ ^{advised}, specially ~~it~~ ^{it} ~~becomes~~ ^{becomes}

Social media has resulted in rapid technological progress and has made the world a smaller place.

The common noun.

Specifying a particular person/thing

- I was in the group of a snake
- I was in the group of pandemic
- I was in the group of fever.
- I was in the group of the monster.

~~addict~~ ^{addict} for teenagers. It reduces physical interaction which ~~creates~~ ^{breaks} the emotional ~~of~~ ^{of} ~~people~~ ^{of} ~~for~~ ^{for} ~~each~~ ^{each} ~~other~~ ^{other} ~~connect~~ ^{connect} among people.

So many times it becomes the platform of fake news. It increased cyber crimes. It became a ~~most~~ ^{most} prime platform of ~~cyber~~ ^{cyber} ~~stalking~~ ^{stalking} which ~~creates~~ ^{creates} the ~~character~~ ^{character} of teenagers ~~and~~ ^{and} ~~in~~ ⁱⁿ ~~the~~ ^{the} ~~world~~ ^{world}.

It ~~creates~~ ^{creates} the ~~generation~~ ^{generation} ~~and~~ ^{and} ~~technical~~ ^{technical} dependency and make people ~~lose~~ ^{lose} ~~the~~ ^{the} ~~habit~~ ^{habit} of ~~long~~ ^{long} ~~reading~~ ^{reading} ~~both~~ ^{both} ~~of~~ ^{of} ~~the~~ ^{the} ~~books~~ ^{books} ~~and~~ ^{and} ~~the~~ ^{the} ~~internet~~ ^{internet}.

People lose the habit of ~~long~~ ^{long} ~~reading~~ ^{reading} ~~both~~ ^{both} ~~of~~ ^{of} ~~the~~ ^{the} ~~books~~ ^{books} ~~and~~ ^{and} ~~the~~ ^{the} ~~internet~~ ^{internet}. ~~It~~ ^{It} ~~reduces~~ ^{reduces} their ~~interest~~ ^{interest} ~~in~~ ⁱⁿ ~~the~~ ^{the} ~~language~~ ^{language} which is a big challenge ~~towards~~ ^{towards} ~~the~~ ^{the} ~~culture~~ ^{culture}.

It reduces the concentration ~~and~~ ^{and} ~~patience~~ ^{patience} of people and makes them ~~disturbed~~ ^{disturbed}.

Social media is a double-edged sword. ~~whether~~ ^{whether} ~~it~~ ^{it} ~~becomes~~ ^{becomes} ~~boon~~ ^{boon} or ~~bane~~ ^{bane} totally depends upon ~~the~~ ^{the} ~~user~~ ^{user} ~~and~~ ^{and} ~~the~~ ^{the} ~~way~~ ^{way} ~~of~~ ^{of} ~~use~~ ^{use}.

If it is used positively it ~~becomes~~ ^{becomes} ~~boon~~ ^{boon} or ~~bane~~ ^{boon} ~~on~~ ^{on} other hand it can be ~~bane~~ ^{bane} if it is used ~~blatantly~~ ^{blatantly} ~~negatively~~ ^{negatively}.

frs - for
grp - group
